The Hammock Park Butterfly Garden is a community garden created by volunteers for the enjoyment of people and butterflies.

- Volunteer project from start to finish
- Funded by continuing donations
- 11 garden beds with a total of 765 square feet
- 40 varieties of plants
- 225 total plants
- Over 35 species of resident butterflies
- Recycled plastic timber edging
- Reclaimed water irrigation system
- Crushed shell pathways
- Project managers: Theresa and James Polgar
- Founding benefactors: Herb and Martha Donald, Bob Young, Pat Jennings, Allan Donald, Ellie Keithly, Theresa and Jim Polgar, and Friends of the Hammock
- Volunteers included Friends of the Hammock group members, Eagle Scout Troop members, Dunedin Garden Club members, friends, family, and neighbors.
- Irrigation and garden bed installation led by Eagle Scout Sean Deeb, Troop 422
- Certifications: Official Butterfly Sanctuary by the Florida Federation of Garden Clubs, Official Wildlife Habitat by the National Wildlife Federation, and Certified Butterfly Garden by the North American Butterfly Association

*Please help us maintain our beautiful garden. Volunteers and donations are needed.
